and
Washington State Department of Health
October 2012

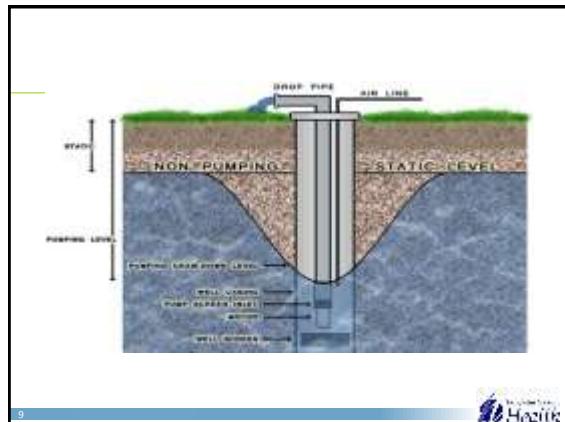

This slide contains a document titled "Measuring water levels in wells". It includes a logo of a water drop with the text "Water Drop Health". The document provides instructions for measuring water levels in wells, mentioning static water level and pumping level. It also includes a photograph of a person working in a well.

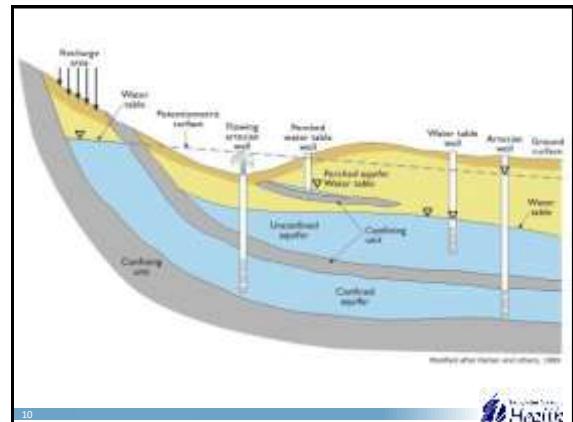

7

DOH Follow-Up Actions

- August 2013: Sent questionnaire to the 25 communities
- January 2014: Held an Open House at Big Bend Community College in Moses Lake
- February 2015: Presentations / Training at ERWOW Annual Conference in Yakima
- June 2015: ERWOW conducted site visits to provide hands on training about measuring water levels
- **Ongoing:** Work with the GWMA study communities during the normal water system planning process
